INTRODUCTION

Product-oriented full-stack engineer experienced in delivering pixel-perfect user interfaces from Figma prototypes across web and mobile apps, while building scalable, reliable backend systems to support real-world products.

EXPERIENCE

Co-Founder & Engineer | 7dollar.delivery (San Francisco, CA | Dec 2022 - Present)

- Built mobile-friendly interfaces using LLMs, Google OCR, and the ChatGPT API to streamline 150+ menu item uploads, boosting efficiency by 12,000%
- Built cross-platform iOS/Android apps using React Native and Expo with push notifications via Firebase Cloud Messaging
- Developed a command queue system to manage thermal receipt and label printers
- Partnered with DoorDash to build a custom delivery API for logistics integration
- Created an SMS sender API through Android and AWS LightSail as a workaround for A2P 10DLC restrictions
- Implemented Stripe APIs improving chargeback and dispute resolution rates by 30%
- Introduced offline functionality using IndexedDB for uninterrupted operations
- Secured ,000 funding through an SF government accelerator program
- Managed end-to-end product development using Node.js, React.js, Firebase, IndexedDB, and GCP

Full Stack Engineer (Contract) | ComfyUI (San Francisco, CA | Jun 2025 - Jul 2025)

- Built reusable React and TypeScript components for an Electron-based ComfyUI extension
- Integrated frontend components with internal Python-based APIs
- Implemented Playwright-based end-to-end tests to ensure UI correctness

Application Programmer | Social Media Lab, Lehigh University (Remote | Aug 2022 - Aug 2023)

- Designed an interactive learning module (DART) to educate users on online scams
- Developed phishing mail simulations and misinformation detection tools
- Collaborated with stakeholders and UX designers on feature requirements

OPEN SOURCE PROJECT

Node.js Library for Brother Label Printers: Built an NPM library to print large PNG images on Brother Label Printers.

SKILLS

Full Stack Development, Mobile/Web Applications, API Integration, Secure Payment Processing, React.js, TypeScript, Node.js, PHP, Java, Kotlin, Python, AWS, GCP, Azure, Firebase, Expo, React Native, MongoDB, MySQL, Git, Figma

EDUCATION

Bachelor of Science in Computer Science and Engineering - Lehigh University, Bethlehem, PA (Graduated 2022)
